

Henny Spaan

Henny Spaan is president & CEO of the Dutch company IBS Precision Engineering, an engineering company developing and realizing high precision metrology equipment.

In 1990 Henny graduated from Eindhoven University in the Mechanical Engineering department. He obtained his Ph.D in 1995 in the precision engineering group of Peter Schellekens on Machine Tool Software Error Compensation. Even before finishing his Ph.D Henny has started his engineering company in 1993.

Henny holds several patents on Machine Tool Error Calibration and compensation techniques, Air-bearings and Metrology on ultra-precision machines. He is active in standardization within ISO (TC213 : Metrology). He is a member of CIRP, ASPE and EUSPEN (since its founding year).

Henny is serving on the Board of Directors of both ASPE and EUSPEN.
